**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-4, 8-14, and 17-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Lee et al., hereinafter Lee (U.S. 6,222,212).

Regarding claims 1 and 18, Lee discloses in figure 8B a semiconductor device comprising a substrate 803 having circuitry 811 and 812 formed in; a passivation layer 804 formed overlying at least a portion of the substrate; and a fuse 813 formed overlying the passivation layer.

Regarding claims 2, 11, 12, and 17, recessed areas, as shown in the figure, is formed in the passivation layer, and portion of the fuse (connectors 805 and 808) are in the recess areas.

Regarding claim 8, interconnects 805 and 808 are connecting a first and a second portion of the fuse to the circuits.

Regarding claim 9, the fuse only is connected to the circuitry.

Regarding claims 10 and 19, packaging material 806 is formed on the fuse.

Regarding claims 3, 4, 13, and 14, see column 5, lines 35-39.

Regarding claim 20, see column 9, lines 51-67; and column 10, lines 1-6.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 5-7, 15, and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lee.

Regarding claims 5, 6, 15, and 16, Lee discloses the claimed invention except the fuse comprises metal nitride. It would have been within the level of ordinary skill in the art to use metal nitride instead of metal oxide (see column 5, lines 43-44).

Regarding claim 7, Lee discloses the claimed invention except for the metal of the fuse having a thickness of less than 1 micron. It would have been obvious matter of design choice to make the metal layer less than 1 micron, since such a modification would have involved a mere change in the size of a component. A change in size is generally recognized as being within the level of ordinary skill in the art.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dana Farahani whose telephone number is (703)305-1914. The examiner can normally be reached on M-F 9:00AM - 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri can be reached on (703)306-2794. The fax phone numbers for the organization where this application or proceeding is assigned are (703)872-9318 for regular communications and (703)872-9319 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)308-0956.
